

Capsidae.

<i>Brachytropis calcarata</i> Fall.	Eur. t.
<i>Camptobrochis Falléni</i> Hahn.	Eur. t.
<i>Capsus trifasciatus</i> L.	Eur. mer.
<i>Halticus pallicornis</i> Fabr.	Eur. t.

Reduviidae.

<i>Oncocephalus squalidus</i> Rossi.	Eur. mer.
<i>Harpactor iracundus</i> Scop.	Eur. mer.
<i>Pirates stridulus</i> Fabr.	Eur. mer.
<i>Nagusta Goedeli</i> Kolen.	Cauc. Graec. Hung.

Cicadidae.

<i>Cicada plebeja</i> Scop.	Eur. mer.
<i>Cicadatra hyalina</i> Fabr.	Ross. mer. Graec.
— <i>Algeos</i> Fieb.	Ross. mer.
<i>Cicadetta tibialis</i> Panz.	Eur. mer.

Litteratur.

Természetrájsi Füzetek (Naturhistorische Hefte), herausgegeben von Alex. Mocsáry, 20. Band, 1897, Theil 1 und 2. Budapest, 1. Febr. 1897.

Entomologischer Inhalt:

H. Friese, Monographie der Bienengattung *Panurgus* Panz. (Palaearktische Formen). S. 78—102. — G. Horváth, Biographie de Jean Frivaldszky (avec portrait). S. 1—16, 252—255. — J. Pável, Neue Beiträge zur Lepidopteren-Fauna von Ungarn. S. 71—77; 256. — J. Pungur, Beiträge zur Ernährung der *Vespa germanica* Fabr. S. 146—148; 257—259. — O. Schmiedeknecht, Die Ichneumoniden-Gattung *Hemiteles* mit einer Übersicht der europäischen Arten. S. 103—135. — J. Thalhammer, *Dipteron novum ex Hungaria*. S. 145. — F. M. van der Wulp, Zur Dipteren-Fauna von Ceylon (Tab. III). S. 136—141.

Actas de la Sociedad Española de Historia Natural, Madrid, 1897 (erscheinen fernerhin allmonatlich, ausser im Juli und August). Januar 1897 Seite 1—48, Februar 1897 Seite 49—80.

Entomologischer Inhalt:

Ign. Bolívar, *Taeniosoma Sanchezii*, un nuevo género en la tribu *Bacteridae* (Brunner) en Filipinas. S. 29—32 (mit Textfigur

S. 32). — Derselbe, Un nuevo libro publicado por Dr. Manuel Paulino d'Oliveira: Catalogue des Hémiptères du Portugal, Coimbra 1896. S. 72—74. — J. M. Dusmet, Lista de algunos insectos (Hemípteros 32, Ortópteros 16, Dípteros 22) recogidos en Ambel (provincia de Zaragoza). S. 75—76. — Medina, Eumenes mediterraneus Kriechb. = E. pomiformis Rossi. S. 80.

The Entomologist; an illustrated Journal of General Entomology. Edited by R. South. No. 404, 405, 406, 407. (Vol. 30.) January, February, March, April 1897.

Inhalt: Rickard, J. C., Fungi Parasitic on Butterflies (with illustration). Pg. 1. — Fountaine, Margaret E., Notes on the Butterflies of Sicily. Pg. 4. — Smith, G. W., The Senses of Insects. Pg. 11. — Cockerell, T. D. A., Descriptive Notes on two Coccidae. Pg. 12. — Adkin, R., Varieties of *Abraxas grossulariata* (with illustration). Pg. 25. — Elwes, H. J., On naming Geographical Varieties. Pg. 26. — Burr, M., Notes on British Orthoptera. Pg. 28. — Lucas, W. J., Dragonflies in 1896 (with illustration). Pg. 29. — Kane, W. F. de Vismes, A Catalogue of the Lepidoptera of Ireland. (Cont.) Pg. 36, 58, 104. — Wailly, A., Silkproducing Lepidoptera. (Concl.) Pg. 39. — Bedford, F. P., Aberrations of *Epinephele hyperanthus* (with illustrations). Pg. 49. — Smith, J. B., Fungi versus Androconia. Pg. 50. — Mayer, A. G., The probable chemical and physical nature of the Pigments of Lepidoptera. Pg. 51. — Harcourt-Bath, W., The probable causes of the decadence of British Rhopalocera. Pg. 55. — Shipp, J. W., On the genus *Gymnopleurus* Illiger; with a List of Species and Descriptions of two new Genera. Pg. 62. — Lepidoptera in 1896. Pg. 67, 107. — Harcourt-Bath, W., On the subordinate influence of climatal conditions in deciding the morphological characters, with special reference to the Rhopalocera. Pg. 97. — Conquest, G. H., and Jefferys, T. B., The probable causes of the decadence of British Rhopalocera. Pg. 102. —

Notes and Observations. Pg. 14, 44, 74, 119.

Captures and Field Reports. Pg. 18, 48, 80, 122.

Societies. Pg. 20. — Obituary (J. B. Hodgkinson). Pg. 124.
